# STEIN LINGE

ANTIQUÉ LOOK WITH EASY-TO-LAY,  
RELIABLE SIZING; ENERGY-CONSCIOUS  
VISIBLE BRICKWORK APPEARANCE.

They are the descendants of the fine old brick era – adapted to meet modern brick veneer standards. Brick slips give a facade the charm of times gone by, while they are at the same time easy to lay thanks to their uniform size. Fired to be frost-proof in high-tech sintering furnaces at 1300 °C, brick slips continue the tradition of masonry with added weatherproofing. These brick veneers are not only permanently easy to clean and use, but in combination with an EIFS system, they are also compliant with all current energy-saving regulations.
